

# Platinum Bright Embers

7/1/19

## What are Platinum Bright Embers?

**PBE-5**  
**\$25.99**

These embers are a patented product from Advanced Catalyst Systems, LLC. These embers are made of a high grade ceramic wool and coated with a small amount of platinum. When placed at the base of a gas fire, they combust at a much lower temperature. The result is a much brighter glow and an increase in radiant heat output.

### Features and Benefits:

- Superior Aesthetics...Looks like real wood embers!
- Platinum coating facilitates more complete gas combustion creating a brighter ember and increased radiant heat output.
- Constructed of catalytic grade ceramic wool. They will not deteriorate when burned.
- Reduces soot formed by fuel decomposition on conventional wool embers.
